Hiring Manager
Front-End Web Developer
Tanium
Durham, NC (Hybrid)

Dear Hiring Manager,

My name is Jonathan Acciarito, and I have been crafting meaningful user experiences with web applications and beyond for 5 years. I have a certificate in MERN stack application development with a robust foundation in JavaScript and TypeScript. I also have experience in building responsive and accessible front-ends with React; designing complex yet sensible and scalable back-ends with Express and Node.js; and utilizing databases such as MySQL, NoSQL/ MongoDB, and PostgreSQL. Additionally, I am proficient in front-end frameworks like React, Vue, and Svelte, as well as web frameworks like Next.js, SvelteKit, Flask, and Django. After seeing your Front-End Web Developer advertisement on LinkedIn, I am excited to apply my expertise with React, Front-End Web Development, and even Wordpress to create functional and stunning components for Tanium's websites for your company.

Through my previous roles in upper restaurant management, I have developed key skills in effective communication, service, and leadership. In these roles, I have managed teams of employees, ensuring efficient operations and exceptional customer service. I also trained new hires, conducted performance reviews, and resolved customer issues. These skills aided me throughout my time learning and growing as a developer, where I excelled in solo as well as group projects, effectively communicating technical concepts to team members and clients. Additionally, I demonstrated strong problem-solving abilities, debugging complex issues and offering innovative solutions. My transferable skills include project management, attention to detail, and the ability to work well under pressure.

Thank you for your consideration. If you have any additional questions, please feel free to contact me by telephone at (984) 327-7647 or via email at jonathanacciarito@gmail.com. I look forward to hearing from you soon.

Best Regards,

Jonathan A. Acciarito
